

JAY BASHEIN

Member of Royal Palm since 1992

In addition to being an animal lover and following a plant-based diet, I have been a Royal Palm member for 30 years. My wife, Jeanne, and sons (Alec & James) play tennis here as well.

My love for the game of tennis primarily is for the health benefits associated with it. This includes the workout of almost every muscle in your body, muscle memory, and aerobic exercise. In addition, the social camaraderie is priceless along with the mental aspect of the game.

In college, I majored in business and finance and earned a BBA from the University of Miami.

Employment

Since the age of 5, I have operated several businesses. When I was 20 years old, I began my primary businesses that I established over the next 30 years. These businesses were buying, selling, and operating gas stations. In addition, I owned a car and truck rental business. For the last 14 years, I have been in retirement from these businesses.

Leadership and Affiliations

I have previously served on the Tennis committee and the Pro Services committee for several years, as well as chairing the Pro Services committee.

I am open to serving on any committee, but through my own personal and business experiences, I would be able to contribute the most to the Finance committee.

Since I play tennis here at our beautiful club almost every day, I feel it's time again to give back and serve once again on the Royal Palm Board of Directors.

Goals/Objectives

My major objective would be adding at least one (if not two) additional tennis courts. My other objectives would be encouraging member participation and input in decisions made by the Board of Directors. I would also like to see, once or twice a year, high level tennis exhibitions or tournaments (ITF or Challenger tour events) that we have had here in the past.

Thank you for giving me the opportunity to serve again on the Royal Palm Tennis Club Board of Directors.
